Why must we contain Smoke, Toxic Gases and Fire? F7 Warning systems | Building Performance This clause ensures buildings are provided with appropriate means of warning people to escape to a safe place in an emergency. It requires warning systems that provide adequate time for people to reach a safe place; for fire detection in all household units; and other appropriate warning for fire and other emergencies. Timber framing - Wikipedia Timber framing and "post-and-beam" construction are traditional methods of building with heavy timbers, creating structures using squared-off and carefully fitted and joined timbers with joints secured by large wooden pegs. It is commonplace in wooden buildings from the 19th century and earlier. If the structural frame of load-bearing timber is left exposed on the exterior of the building it ...
